<i>Preface</i>	<i>ix</i>
1 Contemplating the switch to ArcGIS Pro	1
Background	1
System requirements	2
Licensing	3
Capabilities of ArcGIS Pro	4
When should I switch?	5
Time to explore	8
Objective 1.1: Downloading the data for these exercises	8
Objective 1.2: Starting ArcGIS Pro, signing in, creating a project, and exploring the interface ..	10
Objective 1.3: Accessing maps and data from ArcGIS Online	14
Objective 1.4: Arranging the windows and panes	17
Objective 1.5: Accessing the help	18
Objective 1.6: Importing a map document	19
2 Unpacking the GUI	21
Background	21
The ribbon and tabs	21
Panels	22
Views	23
Time to explore	24
Objective 2.1: Getting familiar with the Contents pane	24
Objective 2.2: Learning to work with objects and tabs	27
Objective 2.3: Exploring the Catalog pane	29
3 The project	33
Background	33
What is a project?	33
Items stored in a project	34
Paths in projects	36
Renaming projects	37

Time to explore	38
Objective 3.1: Exploring different elements of a project.....	38
Objective 3.2: Accessing properties of projects, maps, and other items.....	41
4 Navigating and exploring maps.....	43
Background.....	43
Exploring maps.....	43
2D and 3D navigation.....	44
Time to explore	46
Objective 4.1: Learning to use the Map tools.....	46
Objective 4.2: Exploring 3D scenes and linking views.....	50
5 Symbolizing maps	53
Background.....	53
Accessing the symbol settings for layers.....	53
Accessing the labeling properties.....	54
Symbolizing rasters	56
Time to explore	57
Objective 5.1: Modifying single symbols	57
Objective 5.2: Creating maps from attributes.....	60
Objective 5.3: Creating labels	63
Objective 5.4: Managing labels	66
Objective 5.5: Symbolizing rasters	68
6 Geoprocessing.....	71
Background.....	71
What's different.....	71
Analysis buttons and tools.....	73
Tool licensing.....	73
Time to explore	74
Objective 6.1: Getting familiar with the geoprocessing interface.....	74
Objective 6.2: Performing interactive selections.....	76
Objective 6.3: Performing selections based on attributes.....	78
Objective 6.4: Performing selections based on location.....	80
Objective 6.5: Practicing geoprocessing	81
7 Tables.....	83
Background.....	83
General table characteristics.....	83
Joining and relating tables.....	84
Making charts.....	87
Time to explore	88
Objective 7.1: Managing table views.....	88

Objective 7.2: Creating and managing properties of a chart.....	90
Objective 7.3: Calculating statistics for tables	92
Objective 7.4: Calculating and editing in tables.....	95
8 Layouts	97
Background.....	97
Layouts and map frames.....	97
Layout editing procedures	98
Importing map documents and templates	100
Time to explore	101
Objective 8.1: Creating the maps for the layout.....	101
Objective 8.2: Setting up a layout page with map frames.....	102
Objective 8.3: Setting map frame extent and scale	103
Objective 8.4: Formatting the map frame	104
Objective 8.5: Creating and formatting map elements.....	106
Objective 8.6: Fine-tuning the legend	108
Objective 8.7: Accessing and copying layouts	110
9 Managing data	111
Background.....	111
Data models	111
Managing the geodatabase schema	112
Creating domains.....	115
Managing data from diverse sources	116
Project longevity	116
Managing shared data for work groups.....	117
Time to explore	118
Objective 9.1: Creating a project and exporting data to it.....	118
Objective 9.2: Creating feature classes.....	120
Objective 9.3: Creating and managing metadata	122
Objective 9.4: Creating fields and domains	124
Objective 9.5: Modifying the table schema	126
Objective 9.6: Sharing data using ArcGIS Online.....	128
10 Editing	131
Background.....	131
Basic editing functions.....	131
Creating features.....	133
Modifying existing features	134
Creating and editing annotation	136
Time to explore	136
Objective 10.1: Understanding the editing tools in ArcGIS Pro.....	136
Objective 10.2: Creating points	138

Objective 10.3: Creating lines 140
Objective 10.4: Creating polygons 142
Objective 10.5: Modifying existing features 144
Objective 10.6: Creating an annotation feature class 146
Objective 10.7: Editing annotation 148
Objective 10.8: Creating annotation features 149

11 Moving forward 153

Data sources 155
